

# Super MS

Ms. X vs. CR James

*(we'll start this conversation already in progress...)*

...not only did my jaw drop because she made so much sense with her Sex Wisdom, but I was so #\$\$%\$& confused – that particular day – that I immediately called 4 of my closest friends and told them EXACTLY what happened!

In other words, I told all 4 people The Whispering Sex Secrets...

Yeah I know you're thinking...

*Whispering Sex Secrets??? - Come on CR!*

Yeah. I know that sounds cheesy - but you know me... I've said cheesier things that that in the past...besides even though it sounds hype-ish, I'm not trying to sell anything my friend. I just want your brain to be exposed to this "concept"...

So I'm pretty sure at this point you want me to explain what she said...

No problem.

*But be careful what you wish for!!!*

It all started when a new woman moved into the neighborhood. At some point, she introduced herself and my immediate impression was:

- attractive
- down to earth
- intelligent
- positive

(My wife met her the day before and she would probably agree.)

At some point, our paths crossed again in the parking lot. She was coming from work and about to go inside her house. And I was coming from a store or something and getting ready to go inside, too.

We spoke like friendly neighbors – so far nothing strange or unusual.

She also revealed that she wanted to write a relationship book for women...

Caught off guard, I said: “*Interesting...*”

She said: “*Follow me. I can show you what I written so far...*”

So *hypnotically* I ended up following behind her as we both entered into her home. She *politely* instructed me to seat down. She vanishes from the living room for about 5 minutes.

When she returned, she hopped on to her computer (which was in the living room) – opened up Microsoft Word. Next thing you know, I’m hearing pages being printed....

She then hand me the “11 pages of the book she was working on”...

READ THIS! (she said)

Soon as I reached out to grab the stack of “unbounded” pages, she immediately snatched them away from me...

She started giggling...

I said: “It’s going to be a little difficult for me to read it if I don’t have the pages in my hands...”

She starts laughing...

She playful slapped me on the arm and said “Ok. Ok. But you must promise to give me your honest opinion.”

I said: “You having nothing to worry about.” (laughing)

Then I go to read all 11 pages... and when I’m done reading, all of the *joking* and *kidding around* had sank out of my face...

I was very serious at that point...

I said: “Ms X” this is not only *amazing* information, but it sends a message that is so \$%& **powerful**, that every woman needs to read this immediately!!!

She said: What do you mean by ‘it sends a message that is so dollar sign – percent sign – – ampersand powerful...

I said: I'm sorry. I must have been on the computer for too many hours straight. It sends a message that is so fucking powerful that you need to share this with the world. I've never read anything like this. PLUS... it's *unidirectional* – meaning women can use this awesome concept on men.... And men can use this awesome concept on women...

<< It's unidirectional like [SuperAttractionPower.com](#) which is a book technically for guys - yet the example on the site involves a woman using it powerfully on a guy >>

I said: "You REALLY need to share this with the world"....

She said: "Yeah I know. I know. Everyone says that. I need to finish it..."

I said: "*Finish it??? As far as I'm concerned, it's 100% complete! You don't need to add anything to it...*"

<< Basically it was a short report about what women need to do to STOP their boyfriends and husbands from cheating on them. She gave stories about her life about how she used to be a woman who preyed on Unsatisfied Husbands. It was great information, but what caught my attention was "something else". And this "something else" was Earth Shattering in my opinion. And the funny thing was, she kind of glossed over the "something else" like it was nothing... Don't worry, I'll explain what the "something else" is... And by the way, if you read Super Attraction Power then you're probably thinking that I'm about to re-tell **The 3 Ingredients to Having Addiction Power**. That's not the case, my friend. This "something else" can be looked at as the *Missing Ingredient*...Ok, where was I...>>

Oh yeah...

She said: "*Well I wanted to share some TRUE STORIES from my life- some bad things that I don't do any more. I'm a Christian now...*"

I want to create a chapter called: "*How to Fuck a Faithful Husband*"...

I said: That's a pretty interesting chapter title "Ms. X" (silently I thought, she's going have a tough time getting that in Christian bookstores).

She continued: "*I'm going to share with you some dark secrets from my past.*"

I said: "*OK. I'm listening.*"

She said: "*In the past I use to target married men...so I know exactly how men think... I know what they really want... In fact, right this minute if you put me in a cab and took me to any neighborhood (any neighbor)... I could sleep with any married man on that block in just a matter of days...I know that may make me sound like a whore, but the more faithful he is, the easier it will be. And I'll tell you why...*"

<< The way she talked and her approach reminded me of myself. She was obviously more intelligent than I had initially thought. >>

And then she says: *“I’ll be right back... I need to go to the bedroom for a second...”*

(This is where things get a little weird.)

(At this point, you’re probably thinking what I was thinking: *‘Is trying to seduce me?’* Because if she truly believes she can seduce any married man, and she knows that I’m married, then she is basically saying she could screw me if she wanted to. LOL.)

*Right?*

Anyway, 5 minutes goes by and she comes back into the living room...I have no idea why she left, but when she comes back, she’s awkwardly quiet as if something is on her mind...

I was a little confused and caught off guard...

I said: *“Are you going to continue? Remember, the whole ‘I can seduce any man’ thing...The being dropped off in the parking lot of any neighbor and getting out of the yellow cab’ thing...”*

She says: *“Oh yeah! Here’s why it is so simple easy to screw a married man...I can spend 5 minutes talking to a guy and knowing everything about him...”*

I can bring up certain topics and tell how sexually satisfied he is with his wife...

If he isn’t, then it’s just a matter of time.

If he is satisfied, then I’ll convince him that he isn’t...and that’s the fun part... for most guys it’s very easy to do... for others, I won’t stop until I see that “look in his eyes” that confirms that he now believes “that his sex life sucks” (even though, it may not be true) but that’s just the beginning...

By the way, when I say my jaw dropped it’s based on what she said NEXT...

And this is what made me immediately call 4 close friends...

I said: ‘so continue’...

**She said: “The problem most women have is that they don’t enjoy pleasing their man. He knows it. He feels it. He hates it. They haven’t learned to appreciate him. Women these days are so clueless, it’s a shame. But once I get him in the bedroom, I make it my goal to give him an **Experience Of A Life Time**. Even before we have sex, I think about how I’m going to rock his world like it has never been rocked before so that the sex is so damn steamy he’ll never forget it for the rest of his life. It will be something that he’ll tell his grandkids about!”**

**She continued: All men are constantly craving that one great sexual **Experience They Can Tell Their Friends About**. All women know this about guys. This doesn’t change once he gets married... so I make it my goal is to give him something that will be 10 times greater than what he expects from his biggest sexual fantasy...I don’t have to compete with his boring ass wife...I’m in competition with his biggest sexual fantasy!**

*(I silently said to myself: DAMN!!!!)*

She continued: I make it my goal to give him an experience that’s waaaaayyyy better than his imagination.

<< Let’s pause for a second. Let me put her conversation in the right context, because I want you to pay attention to her Mind State more appropriately, her *Super Mind State* (Super M.S.)...reflect back to what her goal was [“Even before we have sex, I think about how I’m going to rock his world like it has never been rocked before so that it’s so damn good he’ll tell his grandkids about it!] AND [“I don’t have to compete with his boring ass wife...I’m in competition with his biggest sexual fantasy“]. As you may already know, most women don’t think like that. I’ve always been impressed with Big Thinkers. You know when you read those popular relationship books they don’t speak from a “real perspective” - it’s a PhD guy - it’s a PhD woman - it’s a person who smiles on the coach with Oprah (and there’s nothing wrong with that) BUT what I think the world needs MORE OF is “raw truth” - for example, the “truth” spoken from a highly intelligent woman who actually ‘sought out’ faithful married men - and listened to their frustrations... Not a Phd Best Selling Author who has only been with 2 women in his entire life...>>

Pay attention to the Mind State!

A guy told me about this girl he met. Everything was great. When they went to have sex for the first time, she gave him a bitchy speech about all of the things that she doesn't do...

That's not having a Super Mind State (Super M.S.)

Here are the 2 questions you have to ask yourself:

(scroll down)

What is it really like to have sex with the type of woman who would ‘bitch you out’ because you didn’t notice her new purse?

What is it really like to have sex with the type of woman who makes it her goal to give you the best sexual experience you have ever?

That’s why I said previously:

The common approach to becoming desirable is trying to figure out what to say and do.

The Advanced Super Sexy approach to becoming desirable is all about getting information about her - and then playing it back strategically to become her Magical Man.

[As you read what took place, do you get a better understanding to why my jaw dropped? (figuratively, of course)]

I almost got the impression that she has been a “note-taking” fly on the wall while men were alone talking...

But then she continued.....

She said: “*Most women spend time reading Cosmo and similar magazines [that teaches you how to please a man]...but all I need to do is get him in the bed one time, and he’s hooked for life.*”

At that moment in time, I started to feel very uncomfortable, because I didn’t want her to think that she could have *me* if she wanted. I’m happily married. I was initially under the impression that I was having an innocent conversation with this quote-unquote “fellow RAW-TRUTH Relationship-Advice Giver...”

And now things are kind of awkward...

I started to get a little suspicious of her intentions, but at the same time I couldn’t help but think about the power of her message...

I think that all women could learn from her – especially the *mind state* stuff... (Let’s face it, what would it be like to have sex with a woman on **Monday** – where she gets in the bed and just lays there. And in her mind she is thinking about times where previous boyfriends complimented her breasts. So in her mind she is thinking ‘Wow. It must be really great for him to have sex with ME. He’s lucky to see my breasts. I’m driving him crazy. But meanwhile she is just laying there as if she can’t stay focused...

And then on **Tuesday**, you hook up with a woman who has the Super Mind State (of ‘I’m

going to give it to him so good that he'll tell his grandkids about it'). In her mind you're The Man – and she wants you 20 times more than you want her. She's so into you that she's climaxing immediately (and intensely)...she's holding you tight as if you are her Sexual Hero... Here's my point...

As you had sex with **Tuesday Girl**, what would happen if you had sex with **Monday Girl** again? (who kind of approaches the whole thing as if she is doing you a favor)

When you start to realize 'who boring and horrible the sex is with her' (regardless of what color bra she picked out) who is the first person you are going to think about?

(Here's a hint: Everyone answers this question correctly.)

Here's the deal... I've told a lot of people about this story and "her lesson" of having a Super Mind State (even though that's not what she was teaching directly)

So that's why I created...

### **The 5 Reasons Why Women Hate This "Bitch"**

Reason #1: She not only has a "bloodhound" nose for sniffing out Sexually Suffering Husbands, but she feels sorry for them. She lasers in on Sad Face Husbands as if she was bringing a lost puppy into her home who was whimpering in the rain!

Reason #2: She knows that a lot of women are lazy. She "gets off" on the whole 'I'm screwing this guy silly because his girlfriend is stupid' thing...

Reason #3: She doesn't care.

Reason #4: She knows that every guy has had at least 2-3 women in his past that was really into him. And these women were good at expressing 'their strong attraction' sexually. So the more he is with his sexually boring wife (while having previously experienced the concept of 'fun sex'), the stronger the urge to have "a real sexual experience."

Reason #5: She knows that all guys tell stories about their sexual adventures with other guys. If Bob hasn't had any sexual fun in 4 years, and he's at work with 5 other guys who just got finished telling Mouth Watering Stories that things that happened to them in the past month, then he is going to shouting in his mind "I want to have sexual fun, too!!!" (as if he is a 4 year old brat screaming for an extra cookie)
